PREFACE

This portion of the Lockett collection contains a selection of Scottish coins and the collection of Irish coins and tokens from the earliest issues to the last issues.

The Scottish coins are the best private collection known and contain the pick of the famous Bearman collection (which were purchased by us privately). Among other collections from which many of the fine pieces emanated were the Murdoch, Roth, Mann, Lord Grantley, Sheriff Mackenzie, Cochran-Patrick and Dakers.

In the Irish series will be found many coins which have not appeared in an Auction for very many years, among them the very fine and desirable Inchiquin series.

The books of reference used are: —

Burns, E.: The Coinage of Scotland, 1887.

Grueber, H. A.: Handbook of the Coins of Great Britain and Ireland in the British Museum, 1899.

PRICED CATALOGUES

Coins

AFTER each sale these catalogues are issued with the prices realised printed in the margin opposite each lot, thus giving at a glance a reliable guide to values.

The final test of value must always be auction prices rather than the figures given in books of reference for changing times and fashions soon render the latter obsolete and misleading.

On the average we issue twelve Coin and Medal catalogues a year, some of which are usually of sales of important collections The **priced catalogues** are posted to subscribers as soon as ready, usually about a week after the date of sale and the subscription is . . . .
